

LEEDS MARSHALL SCHOLARSHIPS

Further Information Provided by the University of Leeds

With more than half of our schools ranked in the top 10 in the country and 61% of our research is judged to be 'world leading' or 'internationally excellent', the University of Leeds is now among the top ten for research in the UK. It is internationally acknowledged as a centre of excellence in a wide range of academic and professional disciplines. Its broad research and skills base and superb facilities support a range of courses which is the widest in England, and many of the research initiatives at Leeds cross traditional subject boundaries. Support and funding come from a range of partners from small local companies to major multinationals, which all benefit from the expertise of Leeds researchers. Our Graduate Training Centre has a record of excellence with innovative training and development opportunities that lay emphasis on key skills that will enhance your professional career development.

Students

There are over 300 different postgraduate taught Masters programmes at the University of Leeds, addressing a wide variety of subjects.

Research students are supported through Graduate Schools in nine different Faculties, which cover all the major subject disciplines.

Students benefit from outstanding resources including a major academic research library, laboratories and computing facilities, and the Graduate Training and Support Centre. The Graduate Training Centre has a record of excellence with innovative training and development opportunities that lay emphasis on the key skills that will enhance professional career development.

Fellowships

The University of Leeds is a member of the World Universities Network (WUN). A number of its academic staff and research students have taken advantage of this connection to visit and form collaborations with departments and academics at Universities in the United States, including the University of California, San Diego, the University of Washington, Pennsylvanian State University the University of Illinois and the University of Wisconsin.
