Introduction

Background

1. Founded by a 1953 Act of Parliament, Marshall Scholarships are mainly funded by the Foreign, Commonwealth & Development Office (FCDO) and commemorate the humane ideals of the Marshall Plan. The Scholarships are administered by the Marshall Aid Commemoration Commission (MACC or the Commission) on behalf of the FCDO. The MACC Secretariat is provided by the Association of Commonwealth Universities.

2. The following key principles outline the Commission’s approach to risk management and internal control. The Commission should:
   - have responsibility for overseeing risk management within the organisation as a whole;
   - have an open and receptive approach to solving risk problems;
   - make conservative and prudent recognition and disclosure of the financial and nonfinancial implications of risks, whilst recognising them; and
   - identify key risk indicators and closely monitor them on a regular basis.

3. The Commission must also observe any mandatory requests from the Treasury and Cabinet Office, such as the requirements for the publication of materials such as spend and contracts under the transparency agenda; and compliance with the requests for controls and reporting on specific procurement categories such as consultancy.

4. This document’s purpose is to set out some complementary detail to ensure compliance with relevant legislative obligations, including public record and open government requirements.

Scope

5. This Information Management Agreement (IMA) refers to the previous agreement signed and dated 16 April 2013 and defines the formal information management relationship between the FCDO and the Marshall Aid Commemoration Commission as an Executive Non-Departmental Public Body sponsored by the FCDO. The IMA’s provisions apply to all people working on behalf of both the FCDO and the Commission, and must be followed at all times for information in paper and electronic form.
Information Assurance

6. The Commission has appointed the Chair of the Commission as Senior Information Risk Owner (SIRO) to oversee information risk management and report on such issues, where necessary, to the FCDO SIRO. The Commission’s SIRO will be aware of all the organisation's information assets (equipment as well as content), and monitor any risks in relation to them.

7. The MACC will ensure that it meets all necessary requirements set out in HMG Information Assurance (IA) Standards for Central Government Departments and Agencies. Unless a separate procedure is required by the Commission, the organisation will follow relevant FCDO guidance. If the Commission needs to pursue any separate procedure this will at all times meet, or exceed, the requirements of the FCDO.

8. As an Executive Non-Departmental Public Body sponsored by the FCDO, the Marshall Aid Commemoration Commission is a Public Records Body. The Commission will therefore ensure that it meets all necessary requirements relating to information for the public record:

   • The Commission will manage PRA compliance independently, supported by
     i. FCDO’s Information Management Department (IMD);
     ii. The Commission will physically retain and manage its own paper files;
     iii. The Commission will manage all its files in electronic form and has an electronic archive on its ICT system for the purpose of PRA compliance;
     iv. The Commission will hold a direct relationship with The National Archives (TNA) and with the Advisory Council on National Records and Archives, and undertakes to consult FCDO about any FCDO sensitivities in information it is reviewing for release.
